| 8 Pcs | labor installation (8 hours worst case) | 09/15/2022 | \$115.00 | \$920.00 |
| | | | | \$1,103.00 |

NOTES

1. Install one Cat. 6 cable from the switch at the "work bench" location to the wireless access point location in the garage.
2. Install one client provided Ubiquity wireless access point in the garage.
3. Terminate and test cable, connect wireless access point.

Note from Erik:

This is a "not to exceed". The only line item that is "worst case" is the Labor line item. I assumed 8 man hours, but I think it will likely be less. We will only charge you for the time we spend doing the work.

SPECIAL INSTRUCTIONS

1. If multiple heat numbers are being supplied please bundle each heat number separately- unless instructed otherwise in the PO details listed above.
2. You must inform Albina immediately if you are unable to meet the required delivery date(s) listed on this PO, failure to do so will cause significant scheduling problems.
