Andrew, just a note (I texted Shane too late for him to relay this to you): these machines will be wired to our DMZ network. There are DMZ switches at each end of the shop building. If wiring to the server room, we can just wire into the patch panel and patch them to the DMZ switch in there.

Depending on what time you're there tomorrow, I should be available to help with technical stuff like this. I usually arrive to the office around noon...

Sam

Hi Sam:

Should Andrew ask for Shane when he arrives? Let me know. Thanks!

Erik

Hi Sam:

I can have Andrew Nelson stop by tomorrow (Wednesday) to take a look. We should be able to install the cable on Thursday. Will this work for you? Let me know. Thanks!

Erik
