Hey Erik,

We have another request from the City of Lake Oswego. This time for the City Hall cellular system you installed previously. What we are hearing is that the system is not performing as well as it used to and they have asked if you think a service call would remedy any issues.

In your experience, do you think a service call would help? Or might this be equipment failure?

Either way we'd like to mobilize your expertise to help resolve the issue for the City Hall. (and friendly reminder on the Public Library refreshed proposal)

Thank you and looking forward to hearing your thoughts on all this,

Dustin Bateman
