

Title

PPS PEC-EOC Survey 6/2 8am

Assignment Date

June 2, 2023 8:00AM PDT

CHECK IN REQUIRED

ARRIVAL TIME

_____ AM/PM

DEPARTURE TIME

_____ AM/PM

Description

- TECH MUST CALL LCON, 30 MINUTES BEFORE ARRIVAL.
- Upon arrival, departure, and for questions during the survey, check in with the EPIK Technical Coordination (TC) Team at:
 - oBridge: +1 929-229-2436
 - oAccess Code: 595816994#
- Complete survey for analog to LTE conversion using the “Granite-Epik Survey Form” & upload deliverables to link below:
 - o<https://app.smartsheet.com/b/form/40bc4abe49174bb7bb7a4e53895f21ff>
- Be sure to include details below:
 - oTelephone Numbers (TNs) on site and function (Fire, Security, Elevator, Fax, Voice, Intercom, Gate, etc)
 - oPresence of customer network (broadband modem, routers, etc)
 - Distance between proposed EPIK install location to network switch with port availability
 - Port # if customer provides specific port to plug into
 - oLocation of MPOE or DMARC
 - oLTE coverage & speed test – Perform speed test using 4G. Verizon preferred with TMobile as secondary – EPIK should always be installed in the best location with LTE coverage (Not always the DMARC or MPOE)
 - Detail location of the proposed location EPIK will be installed
 - If Speedtest results are below 20mb download, survey for a sufficient location to install a Remote Antenna within 100ft of the proposed Epik installation location and complete the table on the survey form. Interior locations are preferred
 - oBackboard Space (2x2 required), AC Power Availability (Outlet, PDU, UPS).
 - If no AC power within 5 ft of proposed install location, denote the length to nearest electrical outlet
 - oIf no room on existing Backboard, note proposed location for EPIK device installation and distance to current Cross Connect field for EPIK and cabling connections
- Identify location and Make/Model of existing Modem, Firewall, Fire Alarm Panel, Security Alarm Panel, Elevators, and record the monitoring company contact information
- Complete survey for analog to LTE conversion using the “Granite-Epik Survey Form” & upload deliverables to link below:
 - o<https://app.smartsheet.com/b/form/40bc4abe49174bb7bb7a4e53895f21ff>
- Before departure check out with the EPIK Technical Coordination (TC) Team to review deliverables at:

- 1 Sign Off Form
- 3 Photos

Custom Information

- Granite Ticket Number: 1792655

Parts & Logistics

Parts will be supplied by the client.
 The parts will be shipped to the address specified on your profile.
 7700 SW Hyland Way
 Beaverton, OR 97008

Code of Conduct

Marketplace Guidelines for WorkersWorkers: you are the lifeblood of our community. You help power our marketplace and provide incredible value to companies looking for reliable and skilled on-dema

Terms of Agreement

All independent contractors applying for this assignment must have general liability (“GL”) and occupational accident insurance (“OAI”) coverage in order to qualify for this assignment

and perform the contracted services. All assignments with this client will be included in the GL and OAI coverage provided through Bunker, a licensed insurance producer. The GL coverage is provided through Bunker under a group benefits policy offered through the Professional Industry Purchasing Group (the "Group"). The OAI coverage is provided through Bunker under a group benefits policy offered through the Association of United Internet Consultants ("AUIC"). To obtain coverage, you must be a part of the Group and AUIC and pay applicable administration and association fees included in the cost of the policies. By accepting the assignment, the worker agrees to the insurance and authorizes fees to be paid on their behalf for insurance and Group and AUIC membership. Accordingly, the cost of GL (0.83% of the assignment fee) and OAI (0.461% of the assignment fee) coverage, which includes a Group administration fee and an AUIC membership fee, will be deducted from the amount payable for this assignment to pay for the coverage. WorkMarket and ADP are not insurance brokers nor insurers. All contractors agree to consumable material pricing detailed in the "Granite Telecom Material Usage Instructions" that is attached to all assignments.
