**Part 2: Prospective Contractor References for Comparable Projects**

**In order to evaluate a prospective Contractor's record of performance ODOT requires information on prospective Contractor's past performance. Prospective Contractor must check one of the two checkboxes below. If the second checkbox is selected, prospective Contractor must attach a completed prospective Contractor References Form.**

Prospective Contractor has performed similar projects for ODOT within the past 3 years as the prime Contractor under a contract between prospective Contractor and ODOT. Prospective Contractor understands that if it is the apparent successful prospective Contractor, ODOT may still require that prospective Contractor provide references, in which case prospective Contractor must promptly provide them upon ODOT's request.

Prospective Contractor's quote contains three references for similar projects on the prospective Contractor References Form provided in this quote.
