Hello,

I need to have this done ASAP. I need to have it quoted and written up so we can have a PO issued before April 30th. This will take piping and needs to be completed and working now. Can you do this? Please see the pictures below. This is critical.

Hi Allen,

We received a request from the principal at Maplewood to augment wireless in the main hallway to support student testing due to overcrowding at the school. I am attaching some photos including a proposed wireless AP layout of +two(2) additional AP's in the hallway. The nearest data closet is the site MDF. We have access points and wall mounts on-hand for this project.

Please let me know if you have any questions.

Hi Mark,

I hope you're doing well.

Steve Smith informed me that you require some cables to be run for an upgrade, but he wasn't able to recall the specific location. Could you please provide me with the details regarding where the cables will need to be run from and where they will need to be terminated?

Once I have this information, I'll ensure that we get the process started promptly. Your cooperation is greatly appreciated.

Looking forward to your response.
