To: Erik Hopkins &lt;erik@empowerdigital.com&gt;

Erik,

We are in need of urgent assistance regarding a data cable that has been broken since January in Lent, Room 118. The cable run connects to HDF 1.2, and the wireless device associated with this run is also located in HDF 1.2.

The repair needs to be completed as soon as possible. We are flexible about scheduling, and the work can be done either during the day or in the evening. However, please note that the terminations in the room must be done when students are not present to avoid disruption.

Please let us know as soon as possible when the repair can be scheduled.
