ERIK – FYI – I don't know if Wathik needs Andrew back onsite on Monday or not for this. If he does, this conflicts with Andrew being at OCC, correct? We have a TIGHT window available at OCC.

Hello Mark,

Sure we can finish that up on Monday then. What about the 2 switches for the Hunter building? Are they racked too?

Respectfully,

Wathik

[EXTERNAL SENDER]

Hi Wathik

Andrew and I were able to get in there and get everything started but they are finishing the floor today so is it possible to do that Monday?

Thanks

Mark Lee

Hello Mark,

I need someone to physically connect to the stacks so I can put a few more initial configs on them where I can access both stacks remotely. Andrew doesn't have a laptop of console cable with him to do this task with me.

Respectfully,

Wathik

Hi Wathik

Let me see if we have the jump box up still and I will send you everything you need to access it

Hello Mark!

Andrew has gotten the switches installed and is starting up the power up process. I do need to get into those stacks through screen sharing, especially the second stack that has no configurations on it, to make sure remote capabilities are fully enabled on both stacks. From there I'll be able to take over from my own computer and finish the configurations on the stacks remotely. Please let me know when you will be able to get to the racks so I we can get on a zoom session to screen share.

Respectfully,

Wathik
