Eric –

Under the old adage, “All good deeds must be punished...”

Now that the camera system is working, very well thank you, there are three changes we would like to make....

I believe you have the request for a new camera for the corner of the shop.

We need to replace the mid-yard camera, as it has always been a bit hazy

We would like to add a second camera to the pole at the front office to capture the entire truck parking area
