Eric –

I was asked to just make adequate repairs to get the one camera back up.

Please proceed with ordering parts and pieces to replace the one wireless link

Give me a week's notice so I can order in the tall man lift.

Very respectfully

Paul

**Subject:** Wireless Refresh

Hi Paul,

Here is the quote for the wireless refresh. The second page shows the diagram of how everything will be connected.

We also implemented an annual support agreement for all new purchases. For camera systems, this is mandatory, but for a solution like yours, it is just highly recommended.

Please let me know if you have any questions.

Thanks,  
Eric
