Hi Jerry:

I just got word that we have authorization to start a project in early September for Cascadia Behavioral Health. That means that if we don't get the go ahead on the Hood River project soon (hopefully today), it will get pushed out to late September / early October. Let me know when you hear back from them. Thanks!

Erik

Thanks Jerry the plan works with the exception of the September 11 date. Please see if there is any chance that we can get the insulation done before then. By the 27th would be ideal.

Hood River

Estimate is based on one (1) technician on-site(s) for eight (8) hours plus drive time. Materials; 300-400' of Cat.6 CMR cable, Cat.6 mod inserts and/or Cat.6 mod ends. The technician will meet Jose at the existing site at a time specified by Jose, decommission the existing equipment and move it to the new location where he will run temporary cables to get them up and running until we can do the final installation the week of September 11th. I will meet Jose at the new site and develop a final scope of work.

Labor	\$1,610.00
Materials	500.00
Total	2,110.00

I believe this is the worst case, however, not knowing the exact scope of work for the temporary installation it is my best guess.

Ok I can get my customer to walk through with the vendor Wed. but I won't be able to be there.

Can you share the contact information for the field? I will have to make introductions to client site contact etc so he/she can gain access.

Guys, should I reach out to a different vendor? Just wanted to check some availability with your team, but if it won't be possible then please let me know.

Looking to have someone on site as early as Tues. I am flying down then

Hi Cliff,

Thanks again for your help on this. I am looping in my client directly here to streamline communication and get a better understanding of the scope. The scope includes running low voltage cabling and installing

wireless access points.

They'd like to coordinate a walk through for as soon as possible and the office is located at **3275 Lingren Rd, Suite B Hood River, OR 97031**. Can you see when your soonest availability for a walk through would be?

Jose – can you please provide any more information that would be helpful to my team out there, including the equipment you would need us to procure?

Thanks,

Jack Macejka
