Hi Erik,

I wanted to give you the addresses which I think you already have but just want to make sure, as well as phone numbers and the managers name of each location. When you know which days you'll be in the WA locations if you could let me know and I will give them a heads up. I did let our local rep know you should be getting to the OR locations tomorrow. If anything changes or if you need anything from me please let me know.

Hi Erik,

We have five loud ringers for the Tap Plastics store shop areas in Tigard, Lynnwood, Bellevue, Seattle , and Portland. All stores have a Wildix IP system. Please locate the switch providing POE to the phones. Please speak to the Store Managers for location in the shops. Loud Ringers are provisioned and ready. Considering where the equipment/switch is located you may have to run a Cat 5e or Cat 6 cable run. Plug the loud ringer into the POE switch and test with the store main number.

Please provide your address to ship loud ringers to you for installation. We can provide the address for the Tap Plastics store locations. Thank you!
