Good Morning Erik,

I have received an approval for the paging system at Woodburn. We have deleted some amplifiers and added 8 horns, but for the most part the system is the same. Doug and I will be scheduling a phone meeting to coordinate this installation with the other projects that are being installed as well. We will be in touch. Feel free to contact me if you have any questions.

Kevin Caldwell

Subject: Do It Best Woodburn Paging System Installation Proposal

Hi Kevin:

Attached is the installation proposal for the Woodburn Do It Best facility. I decided to not include any materials as that will keep this proposal consistent with the other proposals we are doing for Wired at the Do It Best Woodburn location.

Let me know if you have any questions. Thanks!

Erik
